Computer Code No : 2821

Dispatch no. :  
Ref.No.075

Date : 22<sup>nd</sup> January 2012

To HUBLO Committee  
EPICEA committee

## Sub : Support Thaprek – 7 and Community

We VDC and DEO committee would like to extend sincere gratitude to HUBLO and EPICEA for regular support they gave since 2008

(1) These two organizations provided Health Camp (First Aid Treatment) intellectual support for school building construction, financial support for the construction (16 lakhs Nepali Rupees, 160000). Financial support for toilet construction (Girls' toilet, boys' toilet, bathroom, toilet for staffs and volunteer room) and financial support for water tank construction (60m<sup>3</sup> or 60,000 litre). Water will be used for toilets and excess can be used by community. The tank will be alimented by raining water collection. The total participation was about 4500 Euro. HUBLO and EPICEA also provided health and prevention programme. All children got teaching about the way to brush teeth with special focus on the risk linked with lack of hygiene through Gangalal Heart Centre poster. All children got brush and paste (high quality brush CIBACA and pepsodent 1000pp in fluoride). Seventeen students also got scholarship from 2011.

We also thank at the organization for medical support regarding Yam Maya Gurung and Susan Kunwar.

These programme would have never happened without dedication coming from HUBLO Nepal co-ordination and HUBLO chairperson and the full collaboration concern of EPICEA members. We always extend full gratitude to all of members and we expect them to collaborate in future programme.

Regards.
